WHY CHOOSE ALL HOURS?

"When it comes to your home service needs, All Hours Plumbing, Heating & Cooling stands out as the ideal choice. With a team of highly skilled and certified technicians, we possess the expertise to handle any plumbing, heating, or cooling issue with precision and professionalism.

Our company is known for its commitment to high-quality workmanship, ensuring that every job is executed perfectly. Being fully licensed and insured, you can have peace of mind knowing that your property is in safe hands. Additionally, All Hours Plumbing, Heating & Cooling provides transparent pricing, ensuring that you are aware of the costs upfront, without any hidden fees. Honest, reliable, and fast, we are the go-to option for exceptional home services from Salt Lake City to Park City and beyond!"

Chuck Staszkiewicz Founder / Owner

Adam Mose HVAC Owner

Chuck is our founder and has worked with a number of plumbing companies over the years. He's seen it all - from best practices to worst practices.

Chuck's experiences opened his eyes to the underside of the home service industry and he decided it was time to provide Salt Lake City and the surrounding area with a good, honest company that's in it to provide service to the community.

Honest evaluations and recommendations, and transparent pricing and communication; that's what you get when you use All Hours Plumbing, Heating & Cooling for your home's services. And, that's the way Chuck wanted it from the get-go.

When you want honest pricing from reliable plumbers and HVAC technicians who know what they're doing, choose All Hours. You won't be sorry!

Adam is one of our owners and has over 20 years of HVAC experience. He's worked at both little HVAC shops and big, corporate HVAC companies. While working in a small shop, Adam learned the intimacies of running a successful home service business as well as how to treat the homeowners they served really well. And, while working in a large, more corporate environment, Adam identified some things that he didn't want to bring to the table, and how he didn't want to treat the homeowners he served.

Brought up in an entrepreneurial environment in Texas, Adam learned the importance of rolling up his sleeves and learning new, challenging things in real-time, on the spot. And while he knows his hard work and grit will get the job done, he also knows the importance of surrounding himself with people who approach work in different ways.

Adam's approach is honesty, reliability, and getting the job done as quickly and efficiently as possible.

Honest, reliable & fast

DID YOU KNOW?

Annual checkups can prevent over 70% of all furnace repairs and improve your system's efficiency by up to 16% — saving you money! Did you know that one leaking toilet and a dripping faucet can waste over **50,370** gallons of water a year?

By keeping your central A/C system in top working order with annual maintenance, you can cut your monthly energy costs by about 25% and reduce breakdowns by as much as 95%!
